CAREER OBJECTIVE

Enthusiastic MCA graduate with a solid foundation in software engineering principles including OOP, data structures, and full-stack development. Proficient in Python, Django, ASP.NET, and MySQL, with a keen interest in building impactful technology solutions. Looking to launch a career in software engineering within a global organization that values innovation and collaboration.

KEY STRENGTHS

- Clear, confident verbal and written communication in English
- Strong troubleshooting and analytical problem-solving ability
- Quick learner, comfortable adapting to new products and tools
- Solid grounding in databases, OS fundamentals, and web application flow

TECHNICAL SKILLS

Programming: Python, C, C++, OOP Concepts

Web Development: Django, ASP.NET, HTML5, CSS3

Machine Learning: scikit-learn, NumPy, pandas, OpenCV (Face Recognition)

Databases: MySQL

Tools: VS Code, GitHub

EDUCATION

Mohamed Sathak Engineering College, Kilakarai (Anna University)

2024 – 2026

Master of Computer Applications (MCA) | CGPA: 9.09

Fatima College, Madurai (Madurai Kamaraj University)

2021 – 2024

Bachelor of Science in Information Technology (BSc IT) | CGPA: 6.5

PROJECTS

E-Voting System Using Face Recognition / *Web-Based Biometric Voting Platform*

- Built a secure **web-based e-voting platform** with biometric face recognition for voter authentication.
- Implemented **voter registration, admin dashboard, nominee management, and real-time result display**.
- Integrated **OpenCV-based face detection** (Haar Cascade + LBPH) to prevent impersonation and multiple voting fraud.
- Designed a MySQL database with **encrypted credentials (SHA-256, AES), session management, and role-based access**.
- Published research paper in **IJSART Vol.12, Issue 4, April 2026** (Paper ID: IJSARTV12I4105082).

Farmer Web Assistant Item Sales System / *Agricultural E-Commerce Platform*

- Developed a web-based application enabling farmers to **list, manage, and sell agricultural products online**.
- Implemented **user registration, product management, and order processing** with backend database integration.
- Gained hands-on experience in **ASP.NET backend development** and relational database connectivity.

JOB SIMULATIONS (FORAGE)

Software Engineering Job Simulation, Wells Fargo

Jun 2026

- Completed practical tasks in **creating and implementing a data model**.
- Gained hands-on experience in **software engineering workflows** used at Wells Fargo.

Cybersecurity Analyst Job Simulation, TATA

Jun 2026

- Completed tasks in **Identity and Access Management (IAM) fundamentals**.
- Performed IAM strategy assessment and crafted custom IAM solutions.
- Worked on platform integration as part of a real-world cybersecurity simulation.

ACHIEVEMENTS & CO-CURRICULARS

- **Certifications:** Python & SQL for Data Science (SCALAR); Database Management System, Artificial Intelligence, Python for Data Science (Infosys Springboard); Data Structures & Algorithms (ExcelR); Responsive Web Design (FreeCodeCamp); PHP and MySQL Training (Spoken Tutorial Project, IIT Bombay).
- **Publication:** E-Voting Using Face Recognition — *IJSART Vol.12, Issue 4, April 2026*.
- **Languages:** English, Tamil.
